

TOOL SETTER - Technical specifications -

- Workshop-oriented key pad with multifunctional read-out.
- Illuminated LCD display formeasured value and operator guidance.
- Measurement analyses to 10 my, 2,5 my or 1 my (standardwith optical version).
- Alpha numeric referencememory. (100 references).
- X-Z axis change select in reference memory, for angle head and turned angle lathe tools.
- Holding function, conversion function, (mm – inch, dia – rad, absolut – incremental measurement).
- Software for choice of font fortool-list, lable- and protocolprint with 12 digital tollingnumber data.
- Measuring date output on PC for the expanded measuring software toolset SOFT.

Nr. crt.	CARACTERISTICI TEHNICE <i>Technical features</i>	
1	Cursa de masurare pe axa- X <i>Measuring stroke on the X axis</i>	220 mm
2	Cursa de masurare pe axa- Z <i>Measuring stroke on the Z axis</i>	310 mm
3	Adaptor ISO <i>ISO Adapter</i>	SK 40
4	Constructie <i>Orientation</i>	vertical
5	Greutate <i>Weight</i>	50 kg
6	Proiector <i>projector</i>	Ø100mm
7	Dimensiunile masini <i>Size of the device</i>	310 x 430 x 640 mm
